**Instructors**

Our instructors are chosen for their knowledge of the software they are teaching as well as their ability to present topics in a clear and concise manner. All instructors are tested before beginning teaching. Our instructors have years of software experience and are patient and knowledgeable. Our instructors consistently receive the highest evaluations from their students.

**Student Materials**

Student manuals are easy-to-follow and are loaded with practical exercises. Many of our student manuals are Microsoft, Adobe, or QuickBooks approved. All exercise files are provided, and can be accessed online at anytime. Students will receive a Certificate of Completion for each of their classes.

**On-Site Training**

If you have an appropriate training room, we can conduct training sessions at your location. We can customize the topics to cover the features you need. We have pricing for half-day and full-day On-site classes. Discounts are available for multiple On-site classes. Ask us about supplying computers!

**Private Classes & Tutoring**

If a group of employees at your organization needs customized training or you need individual training with an instructor, we offer private classes and tutoring! Private training can be done at one of our training centers or at your location. Just call and we can tell you about availability.

**In Classroom or Learn from Home**

You can attend in person or attend remotely from home. Either way you are able to ask the instructor questions during the class. The instructor can see your screen, even if you attending from home, to help if you are having problems with any exercises.

**Free Repeats And After Class Support**

Our classes are limited to small groups so that students receive personal attention from their instructor. Free telephone or email support for thirty days is included with your training. Satisfaction guaranteed! Any class you take can be repeated at no charge (as long as there is a seat available in the class you request). Classes can be repeated within six months of the original class date.

**TRAINING COUPONS**

**Business Coupons**

Buy a book of Business Coupons to send students to our regularly-scheduled business software classes. One coupon is good for one regularly-scheduled class from the list below.\* Coupons can be used by different people in your organization. Save up to 41%!

Coupons are good for one year from purchase date.

10 Coupons – \$2,790
25 Coupons – \$6,500
50 Coupons – \$12,250

*\* Please note that the 'Business Coupons' can be used for the following classes: Introduction to Windows, Word, Excel and Access (Introduction, Intermediate, or Advanced), PowerPoint and Outlook: Introduction or Intermediate, QuickBooks Pro: Part 1, Part 2 or Part 3, SharePoint Part 1 or Part 2..*

**Creative Coupons**

Buy a book of Creative Coupons to send students to our regularly-scheduled creative software classes. One coupon is good for one regularly-scheduled class from the list below.\* Coupons can be used by different people in your organization. Save up to 33%!

Coupons are good for one year from purchase date.

10 Coupons – \$3,190
25 Coupons – \$7,500
50 Coupons – \$14,00

*\* Please note that the 'Creative Coupons' can be used for the following classes: Adobe classes (Photoshop, Illustrator, InDesign, Acrobat), HTML classes, CSS classes, WordPress classes or Internet Marketing classes.*

## MICROSOFT EXCEL

### Excel Part 1

Learn to move and copy data, about absolute and relative references, and work with ranges, rows, and columns. Also, how to navigate worksheets and workbooks, enter and edit text, values, formulas, and pictures. This course also covers simple functions used in formulas, basic conditional formatting techniques, and how to create and modify charts.

6 total classroom hours.

### Excel Part 2

Students will work with advanced formulas, learning functions such as IF, AND, OR, SUMIF, COUNTIF, TODAY, NETWORKDATES, LEFT, RIGHT, MID. Work with creating PivotTables and PivotCharts, including slicers and timelines. Also learn how to create outlines and subtotals and how to work with tables. Visualizing data with charts is also included.

6 total classroom hours.

### Excel Part 3

Use multiple worksheets efficiently, learn to use links and 3-D references. Create formulas using VLOOKUP and learn formula auditing. In addition, students will learn about data validation and protecting worksheets and workbooks. Learn how to create macros. Visualizing data with sparklines and mapping data. Forecasting with goal seek, data tables, and charts are included.

6 total classroom hours.

Take all 3 Excel Classes: Part 1, Part 2 and Part 3 as a bundle, which saves over 15%!

[www.ctstraining.com/microsoft-excel-combo-program](http://www.ctstraining.com/microsoft-excel-combo-program)

## ROOM RENTALS

If you have a need to conduct computer training, we have rooms that you can rent, up to 25 computers per room.

## ENROLL ONLINE OR CALL US

[WWW.CTSTRAINING.COM](http://WWW.CTSTRAINING.COM)

Chicago, IL : (312) 923-2100

Schaumburg, IL : (847) 240-1972

Naperville, IL : (630) 245-6911

## MICROSOFT ACCESS

### Access Part 1

After an introduction to database concepts, students will learn how to design and create databases. Then they will work with tables, fields, and records; sort and filter data; and set field properties and data entry rules. Students will then learn to create queries, forms, and reports.

6 total classroom hours

### Access Part 2

Students will learn how to normalize data, manage table relationships, and enforce referential integrity; work with Lookup fields and subdatasheets; create join queries, calculated fields, add objects to forms and create advanced form types; print reports and labels; create and modify charts; and use PivotTables and PivotCharts.

6 total classroom hours.

### Access Part 3

Students will learn how to query with SQL; create crosstab, and action queries; create macros; import, export, and link database objects; interact with XML documents; create hyperlink fields; optimize, split, and back up databases; password-protect and encrypt databases; and set Access options and properties.

6 total classroom hours.

Take all 3 Access Classes: Part 1, Part 2 and Part 3 as a bundle, which saves over 15%!

[www.ctstraining.com/microsoft-access-combo-program](http://www.ctstraining.com/microsoft-access-combo-program)

Attend in person or attend remotely from home!

## MICROSOFT OUTLOOK

### Outlook Part 1

Learn how to read and send e-mail messages using several techniques. Then how to manage e-mail messages and attachments, configure message options, and use search folders. Students will also learn to manage contacts and use the People Pane, work with tasks, and create appointments. Finally, they will learn to send and respond to meeting requests.

6 total classroom hours

### Outlook Part 2

Students will learn how to customize Outlook and work with address books. They will search and filter mail folders, and apply and customize categories. Students will also work with personal, public, and offline folders. Finally, students will organize folders and set rules.

6 total classroom hours

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/outlook](http://www.ctstraining.com/outlook)

## MICROSOFT POWERPOINT

### PowerPoint Part 1

Students will learn to create, and rearrange presentations. Then they will format text, use drawing objects, work with graphics, and insert tables and charts. They will also use slide masters, and transition effects. Finally, students will learn to run presentations.

6 total classroom hours

### PowerPoint Part 2

Students will customize PowerPoint by modifying the Ribbon and changing application settings. They will also apply themes and templates, and they will work with SmartArt graphics. Students will add multimedia content and interactive elements to slides. Finally, students will integrate PowerPoint with Word and Excel.

6 total classroom hours

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/PowerPoint](http://www.ctstraining.com/PowerPoint)

Take both PowerPoint Classes: Part 1 and Part 2  
as a bundle, which saves over 15%!

[www.ctstraining.com/microsoft-powerpoint-combo-program](http://www.ctstraining.com/microsoft-powerpoint-combo-program)

## ON-SITE TRAINING

We can come to your location to teach classes with your choice of topics. Prices start from \$1495 for a full-day class.

## MICROSOFT WORD

### Word Part 1

Students will learn how to navigate documents, enter and edit text, create and save documents. They will also create tables, insert headers and footers, proof, and insert graphics. Learn how to navigate documents, how to enhance the appearance of a document by using various formatting options.

6 total classroom hours.

### Word Part 2

Students will work with styles, sections, and columns and will use the Navigation pane to work with outlines. They will format tables, print labels and envelopes, and work with graphics. They will also use document templates, and work with Web features.

6 total classroom hours.

### Word Part 3

Students will perform mail merges, create forms, and create master documents that include a table of contents, a table of figures, footnotes, endnotes, an index, bookmarks, cross-references, and Web frames. They will also create macros, Quick Access toolbar, and work with XML documents.

6 total classroom hours.

## ADOBE PHOTOSHOP

### Photoshop Part 1

Learn about image copyright, identify the components of the Photoshop environment, learn about the differences between raster and vector graphics, and learn how to use Adobe Bridge. Also, how to modify and manipulate selections. Work with text, layers, and layer effects; learn to adjust, retouch, and resize images; and how to prepare images for printing and the Web.  
6 total classroom hours.

### Photoshop Part 2

Students will learn how to use color fills, gradients, patterns, and overlays. Also, create layer masks and clipping masks to show or hide various parts of an image. They will create and edit paths and convert type to paths. In addition, students will learn how to apply a variety of creative effects, use the Vanishing Point feature and Smart Filters.  
6 total classroom hours.

### Photoshop Part 3

Learn project management basics and how to create layer comps. Explore various techniques for adjusting the quality of an image and making color adjustments. Also, how to use CMYK separations for prepress, customize ink options. Finally, learn how to optimize images for the Web, balancing quality and file size, and how to prepare images for use in video productions.  
6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/photoshop](http://www.ctstraining.com/photoshop)

Take all 3 Photoshop Classes: Part 1, Part 2 and Part 3 as a bundle, which saves over 15%!  
[www.ctstraining.com/adobe-photoshop-combo-program](http://www.ctstraining.com/adobe-photoshop-combo-program)

## ADOBE ACROBAT

### Acrobat Part 1

Learn PDF basics and explore the Acrobat interface. You'll learn how to navigate and organize PDF documents. Create PDF documents from within other applications, and Web pages. Learn to modify PDF content and how to manage security issues and explore document review techniques.  
6 total classroom hours

### Acrobat Part 2

They will learn how to discover geospatial data in a PDF map. Also, color management, proofing, color separations, managing inks, and transparency flattening. You will use the Preflight feature to test and convert a document to comply with print provider requirements or ISO 9000 standards such as PDF/X, PDF/A, or PDF/E. Students will learn to create interactive forms using both the Form Editor as well as LiveCycle Designer ES2.  
6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/acrobat](http://www.ctstraining.com/acrobat)

Take both Acrobat Classes: Part 1 and Part 2  
as a bundle, which saves over 15%!

[www.ctstraining.com/adobe-acrobat-combo-program](http://www.ctstraining.com/adobe-acrobat-combo-program)

## ADOBE PREMIERE

### Premiere Part 1

Premiere is one of the most adaptable digital video editing tools on the market today. We'll learn about the work area, video basics and terminology, transitions, filters, audio, titles & superimposing, the motion command, advanced editing, and layers.  
6 total classroom hours.

### Premiere Part 2

This class focuses on getting students familiar with a complete and logical workflow for creating a video production, thus providing a background of how projects go from start to finish. Topics include color correction, applying transitions effectively, controlling clip speed and key framing.  
6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/premiere](http://www.ctstraining.com/premiere)

## LONGER TRAINING PROGRAMS

Computer Training Source, Inc has longer training programs available. These programs are approved for WIOA and TAA job-training funding.

## ADOBE INDESIGN

### InDesign Part 1

This course is intended for students who want to use the basic tools and features of InDesign to create professional page layouts and designs. In this course, students will use Adobe InDesign to create and deliver professional looking printed and interactive documents. Students will learn to navigate the InDesign interface, create a new document, customize a document using color, swatches, gradients, and styles as well as manage page elements, add tables and finally prepare documents for deployment.  
6 total classroom hours.

### InDesign Part 2

This course is intended for students who want to expand their entry-level knowledge of Adobe InDesign by using advanced features and collaboration tools. Students will learn how to prepare documents for multiple formats, manage advanced page layouts, manage styles, build complex paths as well as manage external files and create dynamic documents. Including managing long documents and publishing InDesign files for other formats and customized print settings.  
6 total classroom hours.

### InDesign Part 3

Our InDesign Part 3 will cover importing and modifying graphics, creating clipping paths, working with transparency and enhancing graphics with special effects, working with advanced text techniques, adding interactive elements for creating E-books, creating animation, setting page transitions, adding sound and movies, adding hyperlinks and advanced navigation techniques, working with form fields, and more.  
6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/premiere](http://www.ctstraining.com/premiere)

Take all 3 InDesign Classes: Part 1, Part 2 and Part 3 as a  
bundle, which saves over 15%!

[www.ctstraining.com/adobe-indesign-combo-program](http://www.ctstraining.com/adobe-indesign-combo-program)

## ADOBE ILLUSTRATOR

### Illustrator Part 1

After getting familiar with the Illustrator environment, students will learn how to create a simple illustration by creating and manipulating shapes and by drawing and editing paths. Students will also learn how to apply color, gradients, and transparency. They will then learn how to work with text and layers.

6 total classroom hours

### Illustrator Part 2

Students will learn more advanced techniques for working with paths, masks, fills, and strokes. Students will also learn how to use transformation tools, envelopes, filters, effects, and graphic styles. In addition, students will learn how to convert raster images to vector art and how to manage color settings, color separations, and print specifications. Finally, students will learn how to work with slices and how to optimize and export images for the Web.

6 total classroom hours.

### Illustrator Part 3

We will take a look at practical insights on creating illustrations. In this class we will work with advanced type, symbols, graphs, color, effects, web graphics, and custom workspaces.

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/illustrator](http://www.ctstraining.com/illustrator)

Take all 3 Illustrator Classes: Part 1, Part 2 and Part 3 as a bundle, which saves over 15%!

[www.ctstraining.com/adobe-illustrator-combo-program](http://www.ctstraining.com/adobe-illustrator-combo-program)

## ADOBE AFTER EFFECTS

### After Effects Part 1

This class will cover setup and pre-roll, working with text, rendering, integrating Photoshop images, transparency and alpha channels, special effects advanced motion techniques, and special effects for film.

6 total class hours

### After Effects Part 2

This class will take students beyond the basics of After Effects. The course expands student knowledge into more advance techniques for the creation of effects for animation and video. Topics included are compositing, layers, rotoscoping and green screen.

6 total class hours.

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/after](http://www.ctstraining.com/after)

## GOOGLE ANALYTICS

### Google Analytics Part 1

Google Analytics is a suite that is integrated with Google's data to help draw conclusions about the effectiveness of your site content, promotions and advertising campaigns. Learn how to implement Google Analytics, how to manage your accounts, perform reports and in-depth analysis with specific reports.

6 total classroom hours.

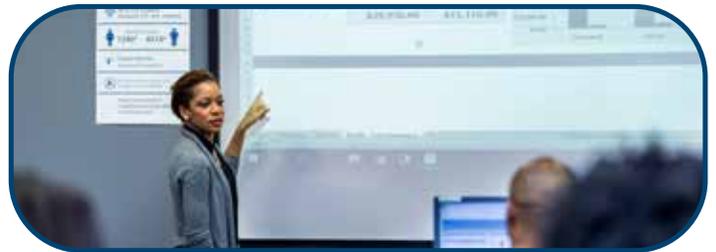

### Google Analytics Part 2

This class will help you gain the ability to create and customize your information the way you want. You will learn how to do an account setup and event tracking. Also learn the steps to building dashboards and building custom reports.

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/online-marketing-training-classes](http://www.ctstraining.com/online-marketing-training-classes)

## GOOGLE ADS

### Google Ads Part 1

Google Analytics is a suite that is integrated with Google's data to help draw conclusions about the effectiveness of your site content, promotions and advertising campaigns. Learn how to implement Google Analytics, how to manage your accounts, perform reports and in-depth analysis with specific reports.

6 total classroom hours.

### Google Ads Part 2

This class will help you gain the ability to create and customize your information the way you want. You will learn how to do an account setup and event tracking. Also learn the steps to building dashboards and building custom reports.

6 total classroom hours.

## MICROSOFT SHAREPOINT

### SharePoint Part 1

Learn how to easily navigate SharePoint, work with lists and libraries, and use discussion boards, surveys and blogs. You will also learn some basic customization of the SharePoint environment, including creating view and configuring personal settings.

6 total classroom hours.

### SharePoint Part 2

You will take the role of a user with Design permission. You will add libraries, lists and page components, change the look and feel of a Team site, control the display of content and create workflows and content types. SharePoint Part1 (or 3 months of SharePoint experience) is required before taking this class.

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/sharepoint](http://www.ctstraining.com/sharepoint)

Take both SharePoint Classes: Part 1 and Part 2  
 as a bundle, which saves over 15%!

[www.ctstraining.com/microsoft-sharepoint-combo-program](http://www.ctstraining.com/microsoft-sharepoint-combo-program)

## QUICKBOOKS DESKTOP

### QuickBooks Desktop Part 1

Learn to organize business finances. Also, how to start QuickBooks, set preferences and how to identify the various components of the operating environment. You will walk away knowing how to set up a company, set up inventory, work with invoices, process payments, and how to enter and pay bills.

6 total classroom hours.

### QuickBooks Desktop Part 2

Learn how to perform various transactions within this class. Also, to customize forms, create reports, how to use other QuickBooks accounts, track and pay sales tax, and prepare payroll. You must take QuickBooks Part I class (or have used QuickBooks for at least three months) before taking this class.

6 total classroom hours.

### QuickBooks Desktop Part 3

This class involves the practical use of QuickBooks with a mock company. You will be entering, editing and deleting multiple bills, checks, invoices and credit card charges in realistic workflow scenarios.

6 total classroom hours.

Take all 3 QuickBooks Classes: Part 1, Part 2 and Part 3 as a  
 bundle, which saves over 15%!

[www.ctstraining.com/quickbooks-combo-program](http://www.ctstraining.com/quickbooks-combo-program)

[www.ctstraining.com/QuickBooks](http://www.ctstraining.com/QuickBooks)

## LONGER TRAINING PROGRAMS

Computer Training Source, Inc has longer training programs available. These programs are approved for WIOA and TAA job-training funding.

## QUICKBOOKS ONLINE

### QuickBooks Desktop Online Part 1

This class involves the practical use of QuickBooks Online with a mock company. The students will be introduced to the platform. Practice entering/editing/deleting bills, checks, invoices, and credit card transactions in realistic workflow scenarios. The students will also work on reconciling credit card and bank statements. Additional topics are covered as well.  
6 total classroom hours.

### QuickBooks Desktop Online Part 2

You will learn how to perform various transactions within this class. Also, learn how to customize forms, create reports, how to use other QuickBooks accounts, track and pay sales tax, how to use online banking, and prepare payroll. You must take QuickBooks Part I class (or have used QuickBooks for at least three months) before taking this class.  
6 total classroom hours.

### QuickBooks Desktop Online Part 3

This class involves the practical use of QuickBooks with a mock company. The students will be entering/editing/deleting multiple bills, checks, invoices, and credit card charges in realistic workflow scenarios. The students will also work on reconciling credit card and bank statements. Students should take Part I and Part II before this class, or have less than 1 year of experience using QuickBooks.  
6 total classroom hours.

Naperville, IL : (630) 245-6911

## HTML & CSS

### HTML Part 1

HTML is the language of all websites. Keep your website up-to-date: learn to write HTML to design or change web pages. We'll cover adding 'tags', links, images, style sheets, frames, tables, and more.

6 total classroom hours.

### HTML Part 2

We'll cover basic and advanced forms, image maps, cascading style sheets, color and background properties, reusing styles, and tips and tricks.

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/HTML](http://www.ctstraining.com/HTML)

### CSS Part 1

The class will take students through the Web page creation process, one step at a time. Students will start with a review of CSS essentials, learn to build effective navigation and page layouts, and then move on to work with typography, colors, backgrounds, and white space.

6 total classroom hours.

### CSS Part 2

Learn to create CSS layouts, use invisible HTML containers to create a page structure, use CSS Flexbox to create rows & columns, use Flex to size columns, position content within invisible containers, make your layouts responsive, and more in this class.

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:  
[www.ctstraining.com/HTML](http://www.ctstraining.com/HTML)

“It was informative, useful and positive. The day also went by really quickly which was nice for professional development.”  
- Brigid McClelland, (Chicago Public Schools)

## WORDPRESS

### WordPress Level 1

WordPress has become one of the most popular blogging tools on the web. Learn how to setup, configure and post with WordPress. We will also look at how to customize a WordPress site with themes.

6 total classroom hours.

### WordPress Level 2

Learn to install WordPress on a hosted server, using WordPress as a content management system (CMS), customizing themes and appearance with widgets and code changes, and adding plug-ins. (Some HTML, PHP, and either Photoshop or Fireworks knowledge is preferable to take this class.)

6 total classroom hours.

To view class dates, times, and fees for these classes, please visit:

[www.ctstraining.com/wordpress-training-classes](http://www.ctstraining.com/wordpress-training-classes)

Take both WordPress Classes: Part 1 and Part 2  
as a bundle, which saves over 15%!

[www.ctstraining.com/wordpress-combo-program](http://www.ctstraining.com/wordpress-combo-program)

## MySQL

### MySQL Introduction

MySQL Introduction will allow you to work with databases by identifying the fundamental concepts of databases, creating a preliminary database design, applying normalization techniques, and familiarizing yourself with relational database management systems. Using various SQL commands, indexes, and views, you can work with and modify data efficiently within a database.

12 total classroom hours.

To view class dates, times, and fees for this class, please visit:

[www.ctstraining.com/mysql-training-classes](http://www.ctstraining.com/mysql-training-classes)

## PHP

### PHP Introduction

PHP is a scripting language used for creating dynamic websites. In this course, you will acquaint yourself with PHP by working with its common script elements to create forms, address the stateless nature of HTTP by setting cookies and session variables in your scripts, and write the data entered in a form to a database. This course is designed for the student who is well versed with scripting languages, such as HTML and SQL.

12 total classroom hours.

To view class dates, times, and fees for this class, please visit:

[www.ctstraining.com/php-training-classes](http://www.ctstraining.com/php-training-classes)

## JavaScript

### JavaScript Introduction

This course teaches you how to develop interactive web pages using the JavaScript language. With JavaScript, you can include programs that interact with the user, control the browser and dynamically create HTML content.

12 total classroom hours.

To view class dates, times, and fees for this class, please visit:

[www.ctstraining.com/javascript-training-classes](http://www.ctstraining.com/javascript-training-classes)

## PYTHON

### Python

Learn Python coding including basics of programming and fundamental techniques used in object-oriented programming. Training includes programming concepts conditional execution, loops, Python programming language syntax, semantics, and the runtime environment. This course helps prepare you to take the PCAP certification.

40 total classroom hours.

## AGILE

### SAFe Scrum Agilist

Attendees gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework<sup>®</sup> (SAFe<sup>®</sup>) and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps. Participants in the class gain insights into mastering Business Agility in order to thrive in the competitive market. They discuss how to establish team and technical agility and organize and re-organize around the flow of value, and much more

16 total classroom hours

### SAFe Scrum Master (SSM)

Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares students to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organization.

16 total classroom hours

### SAFe Product Owner/Product Manager (POPM)

Students gain an in-depth understanding of how to effectively perform their role in the Agile Release Train (ART) as it delivers value through Program Increments. Students explore how to apply Lean thinking to decompose Epics into Features and Stories, refine Features and Stories, manage Program and Team backlogs, and to plan and execute Iterations and Program Increments.

## SQL QUERIES

### SQL Queries Introduction

SQL statements are used to perform tasks such as updating data on a database. Some common relational database management systems that use SQL are: Oracle, Sybase, Microsoft SQL Server, Access, Ingres, and others. Some of these database systems will have extensions specific only to their system. However, the standard SQL commands such as "Select", "Insert", "Update", "Delete", "Create", and "Drop" are used with all these database systems.
